Astro ARCADE
## Doesn't just play games

Astro Basic is a plug-in cartridge that turns the Astro Arcade into a personal home computer. Besides the three built-in games and calculator in the Arcade Video game unit. The Astro Basic manual gives you a great many additional exciting games. It includes an illustrated self teaching basic language learning course. An incredible array of electronic music, sound effects, video art, colors and graphics allow the non-technical user to create their own video games and basic language programs. These can be stored on the users' own home tape recorder for later use. Hundreds of more programs and games are also available through Astro Arcade user groups.

Astro PROFESSIONAL ARCADE
