

Congratulations on becoming a Bally/Astro Professional ARCADE owner.

Your ARCADE unit with the BALLY BASIC Cartridge inserted becomes a versatile home computer.

If you are interested in what equipment and programs are available to expand your ARCADE - then buy the

BALLY / ASTRO SOURCEBOOK

The BALLY/ASTRO Professional ARCADE Software and Hardware SOURCEBOOK will acquaint you with the programs and accessories that are available for you to use with your new ARCADE computer.

The SOURCEBOOK is a compilation of Software and Hardware Products produced for the BALLY/ASTRO Professional ARCADE. The SOURCEBOOK contains 100+ pages, with more than 400 Software and Hardware Listings.

Two editions of the SOURCEBOOK are published each year. Orders received between March and August will receive the SUMMER Edition. Orders received between September and February will receive the WINTER Edition. Allow three to four weeks for delivery.

The SOURCEBOOK is published by RMH Enterprises and has no official connection with the ARCADE manufacturer-ASTROVISION Inc.

THE SOURCEBOOK CONTAINS:

SYSTEM SUMMARIES

A brief history of the various ARCADE units produced plus information about several add-on units produced by other companies. (Professional ARCADE System, ZGRASS-32 System, Blue Ram System, VIPER System, Extended BASIC Language and the Machine Language Manager Cartridge)

ASTROVISION PRODUCTS

A description of ASTROVISION products.

SOFTWARE INDEX
