Dear Miss Breitmeyer and Mr. Fabris:

This letter is an addendum price authorization to Nitron's letter agreement of November 14, 1984 to allow the sale of the Basic arcade system complete with one each of the 24 cartridges listed in the attached Astrocade mailer for \$199.95 per set. This represents an 18% discount from the total price of \$244.50. Also, if either one or more of the cartridges are not available or desired by the customer but the package price is at least \$175.00, you may deduct an additional 18% from the total package. A sample order is attached.

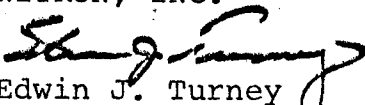

Additionally, I have authorized certain Nitron personnel to sell the games and cartridges under the same terms and conditions as agreed upon with both BriteDay and the Arcadian Company. Should they sell any of these products, the 10% commission, of course, will be paid to them rather than BriteDay or the Arcadian Company. Those personnel are: Dave Diffenderfer Sr., Gina Larva, and Doreen Lund.

Therefore, by copy of this letter, I am requesting that Miss BriteMeyer provide any games ordered by the above personnel to them at a 10% discount upon the presentation of cash or acceptable monetary payment.

If anyone has any questions, please do not hesitate to contact me.

Sincerely,

NITRON, INC.
