OCTOBER 9, 1980

DEAR ROBERT FABRIS (PUBLISHER),

    I WAS PLEASED TO SEE THAT YOU ARE CONTINUING THE ARCADIAN
FOR ANOTHER YEAR. MY CHECK IS ENCLOSED.
    OVER THE COURSE OF 1979, YOU PUBLISHED THREE OF MY PROGRAMS.
IT GAVE ME GREAT JOY TO SEE MY WORK IN PRINT. I EVEN RECEIVED
A FAN LETTER FROM A FELLOW YAHTZEE ADDICT. I AGREE THAT THE DICE
SHOULD HAVE BEEN LARGER. I WROTE THE PROGRAM WHILE IN CANADA
AND HAD NO AVAILABLE MACHINE.   MY TRINITRON RESOLVED THE DICE
TOLERABLY WELL, AND I WAS GENERALLY TOO BUSY PLAYING TO CORRECT
THE SITUATION. AH WELL, ONE OF THE JOYS OF THE MACHINE IS
SNIPPING HERE, PASTING THERE... LET SOMEONE ELSE ENJOY HIMSELF.
    I ENCLOSE A CASSETTE WITH TWO OFFERINGS ON IT. I GIVE YOU
THE RIGHT TO PUBLISH THESE IN THE ARCADIAN AS YOU SEE FIT.
   ON SIDE ONE THERE IS A SHORT PROGRAM THAT USES THE
"GIANT LETTER" ROUTINE. THIS IS A MATH DRILL PROGRAM THAT I
CALL SPEEDO-MATH. ALL INPUT IS THROUGH THE KEYPAD. IF YOUR
SUBCRIBERS MODIFY THIS VERY MUCH, THE LETTERS WILL HAVE TO BE
MOVED HIGHER ON THE SCREEN TO AVOID WIPING OUT THE PROGRAM.
    ON SIDE TWO I HAVE INCLUDED MY VERSION OF MASTERMIND.
THE COMPUTER HOLDS A FOUR COLOR CODE. TRY TO GUESS IT. ENTER THE
FIRST LETTER OF EACH COLOR THROUGH THE KEYPAD. EACH BLACK IS
A CORRECT COLOR GUESSED IN THE CORRECT SPOT. EACH WHITE IS
A CORRECT COLOR IN THE WRONG SPOT. I WROTE THIS FROM SCRATCH.
    I WISH YOU WELL ON YOUR ENDEVORS WITH THE BALLY. I THINK
THAT A MACHINE LANGUAGE MONITOR IN THE BLUE-RAM WOULD BE
A WORTHWHILE PROJECT. I HAVE TIRED OF WAITING FOR A BALLY ADD-ON.
I BOUGHT AN APPLE-II PLUS IN FEBRUARY AND AM VERY PLEASED WITH
MY PURCHASE. I AM NOW WRITING A SERIES OF MACHINE LANGUAGE
ANIMATION GAMES THAT I HOPE TO MARKET.
    THANK YOU AGAIN FOR YOUR GOOD WORK ON THE ARCADIAN.   COULD
YOU PLEASE PUBLISH HOW MANY SUBSCRIBERS THERE ARE? PERHAPS YOU
COULD DRAW MORE ADVERTISMENTS?

                        SINCERELY,

                        BOB WISEMAN
