

FINDERS-KEEPERS

: From 2 to 4 people compete at the same time;
 Try to find the Secret Dot that the computer has
 selected in your area before you opponents find
 the one in their areas.

Triggers and Knobs have no function. Each Joystick
 controls Blinking Box located originally closest to
 number on top of sections.

Inputting wrong numbers will prompt computer to
 re-ask original questions.

In Partners Game 1 & 2 are Partners, as well as
 3 & 4; However, one of the two players in that
 section must find all Dots selected to score any

points. When a player in a game of 3 or 4 players, Singles
 finds numbers of Dots selected, he is out of that round
 until only one player remains, after which time all players
 reset. Each time a player "finds" a secret dot ALL secret
 dots are reselected.

In the "Easy" version, the dots disappear and cannot be
 reselected until the round is over. In the "Hard" version
 the dots do not disappear and may be reselected at
 any time that someone finds a dot.

SCORING:

First to find dots - 100 pts.
 First partner to find dots - 100 Team pts.
 2nd player (if over 2 playing singles) 50 pts.
 3rd (if 4, singles) 25 pts.
 Last person left 0 pts.

1000 points is the game high - once reached press any # Key
 to rerun.

NOTE :

Not more than 10 dots can be selected per round.
