① r after. Character mode

meal you can ? This program will automatically do a lot
of the work for you

A grid will come up — Use the joystick to move the cursor,
into the knob turned extreme left, pulling TR will set down a
spot, if the KN is R, then N will erase.
When done, move the cursor off the grid to lower
right & ...

The entire will of A ... you a real-size image of the
character, then TR will cause it to print out the
% (.) values for the character you've checked
