

PERSONAL COMPUTER BREAKTHROUGH

**12K Home
Computer
System \$272.⁰⁰**
~~**\$299.⁹⁵**~~ ■ **POSTPAID**

The Professional Arcade Is A Complete Home Computer System, And Includes These Exciting Features:

- **Z80 BASED PROCESSOR UNIT**
 - 5 times more processing power than the Z80 alone.
 - Completely assembled and tested.
 - 8K ROM; 4K RAM.
 - High resolution color display
 - Expandable to 44K system with full Basic.
- **24 KEY KEYBOARD**
 - Adapts to different program cassettes for a variety of applications with simple overlay cards.
- **INSTRUCTION MANUAL**
 - Gives clear, illustrated, step-by-step instructions on how to install your Bally and start enjoying it within minutes of taking it out of the carton.
- **4 REMOTE HAND CONTROLS**
 - Determines action for each movement of the game being played in 8 different directions. Squeeze the trigger for shooting in Gunfight or for tracing on the screen in Scribbling.
 - ALL FUNCTIONS OF THE CONTROLS CAN BE ADDRESSED IN TINY BASIC!
 - Pistol grip design. Each control numbered on top.
- **CASE**
 - Case is 5" x 11" x 15", made of high impact clear plastic with storage space for 15 cassettes.
- **3 GAMES**
 - Gunfight, a 2-player game. Walk your fighter around the screen, raise or lower his arm and shoot.
 - Checkmate, 0-4 players. Crash opponents into your trail, their trail or the sides of your TV screen.
 - Scribbling, draw or write almost anything you choose in 256 different color patterns.
- **CALCULATOR**
 - The Bally Professional Arcade works for you as well as entertains you. Its sophisticated 5-function, 10-memory printing calculator with scroll button and entry correction helps you reconcile bank balances, compute taxes and the like.
 - Convenient algebraic entry system allows problems to be entered in the same order written. If you want to calculate 3 + 4 - 5, press only 3 + 4 - 5.
 - Easy to operate. Add, subtract, multiply, divide. See exactly what takes place and how it looks on your TV screen.

EXPAND YOUR 12K SYSTEM TO 44K AT AN UNBELIEVABLY LOW PRICE!

Your Professional Arcade can be expanded into a complete home information system through a 50 pin connector located at the back of the unit.

PRELIMINARY SPECIFICATIONS INCLUDE:

- Full Basic with extended graphics and music
- 16K additional ROM
- 16K additional RAM
- Industry Compatible keyboard
- IEEE port
- Preliminary price: ~~\$300~~ **\$400**

PRICE, DELIVERY, AND SPECIFICATIONS ARE PRELIMINARY, AND ARE SUBJECT TO CHANGE WITHOUT NOTICE.

PANCENTERS . . . the most unique
Home Entertainment Store in the Greater
Bay Area is pleased to announce the arrival of
the BALLY Home Computer Arcade
which is light years ahead of everyone else . . .

- 1 – The Bally Computer/Arcade System is so incredible that ALL others can not compete.
- 2 – The Bally's computing system capability resembles that of a low cost business computer costing \$10,000.
- 3 – The *computer, game, arcade, teaching machine*, with Videocade™ cassettes, are the same size as an audio cassette, yet incorporate more logic than any other TV type game on the market.
- 4 – Bally is the only FOUR PLAYER game with full computer compatibility and a built-in 5-function, 10-memory printing calculator.
- 5 – Bally is the only system which is TOTALLY expandable and programable. Late this year, Bally will introduce a fully compatible Alpha Keyboard which will interface with the basic unit. This typewriter keyboard will also have a basic and advanced computer language cassette to program the system to fit your needs at home or business.
- 6 – The Bally will also have an input/output printer to give you a paper copy of what you view on your screen.

The *7th through 100th points* in its favor we will tell you about in person. We feel Bally is the most astonishing system on today's – and tomorrow's – marketplace. By the way, *point 7* is that Bally has better resolution than *any* of the others . . . *and 256 color variations* are available . . . *and Bally plays baseball the real way . . . and Bally can automatically increase your level of math.*
