X/AO

Dear Bob,

Please keep up with your excellent work in the Arcadian, it is the one thing that has kept me from being totally discouraged with the endless delays from Bally on the expansion unit. It obviously was a great disappointment to learn that the price would increase from \$400 to \$650. (It will probably go higher before it goes on sale.)

Regarding your questions July 20, 1979:

- 1) Pay \$650? - Reluctantly, YES.
- 2) Pay \$350? - Probably, depends on features.
- 3) Sounds ok to me. YES.

My main future interest in the expansion unit would be for business accounting and financial analysis programming (Real Estate in particular). In the meantime I would really appreciate seeing some business programs in Arcadian.
