

Let Spectre Systems handle your computer with our custom Bally handles!

We have designed new handles that give your Bally computer more flexibility, and we back it up with software.

For **\$49⁹⁵** our standard handle features:

- * Low cost with quality construction
- * Spill-proof, sealed keypad with 1/2" key spacing and snap-dome button assembly. Key surface is scratch, mar and soil resistant.
- * With X and Y ranges between 0 and 255, our joystick provides true joystick operation with the Bally Arcade.
- * Plugs into Arcade with two hand connectors with no other wiring or modifications needed.
- * No batteries or power supply needed.
- * Can be used with Bally Basic to create your own games.
- * Comes with software and instructions.
- * Available in table-top or hand-held models. Right or left-handed models available with a choice of brown or blue keypad.

Special options available:

- * Deluxe 3/4" key spacing with spring button switch assemblies and heavy duty key caps . . . \$22.00 extra.
- * Custom trigger buttons. Commercial arcade buttons provide real arcade feel for Pinball, Space Invaders and more at \$4.00 per button extra.
- * Decorator and special function cases available. (Prices start at \$5.00 extra and up.) Call for a custom estimate.

Please contact us for custom designs. We can meet your needs! We can produce handles with any combination of keypads, joysticks, buttons or other options.

Dealer discounts available. Please inquire.
