AMAZING MAZE/ TIC-TAC-TOE 5001

Two mind-boggling challenges! Amazing Maze is a race through a maze between you and the computer or another player. The maze is truly amazing because it changes every time you play. Select easy ones or hard ones to match any skill level. Tic-Tac-Toe is the traditional game with a diabolical twist. You get to play against the computer! 1 or 2 players.

VIDEOCADE #5001

AMAZING MAZE
TIC-TAC-TOE

LOADING INSTRUCTIONS

1. Turn on your Bally Professional Arcade and TV set, then select channel 3 or 4.
2. Connect the hand controls by inserting control #1 into the first jack on the back left side (as you face the front of the Arcade). From left to right, the jacks connect to players 1, 2, 4 and 3.
3. Insert the game cartridge, label side up, into the cartridge slot. Press it down firmly to lock it into position.
4. Press the RESET button, and the menu of games will be displayed.

AMAZING MAZE (1 or 2 players)

Walk down "blind alleys" or find three doorways leading from a room--each one leading into a closed hallway! Score points by being the first one to arrive at your opponent's starting point.

With Amazing Maze, you can choose long or short games and select from a variety of skill levels. At any level, the maze changes every time you play.

STARTING THE GAME

Choose Amazing Maze by pressing 1 on the keypad or by using remote game selection (pull the trigger on hand control #1, turn the knob until 1 appears on the screen, then pull the trigger again).

Enter the number of players (1 or 2). If 1 is entered, the other player is the Arcade.

Select the maximum score (1-99). The score entered is for the total game (not for each player). If you enter a number that is less than 9, you will need to press the = sign to start the game.

Choose the difficulty of the maze by selecting 1-EASY, 2-MEDIUM or 3-HARD.

PLAYING THE GAME

The hand control functions for Amazing Maze are:

| | |
|----------|---|
| Trigger | (Hand control #1) Advances the game to the next maze. |
| Knob | Has no function. |
| Joystick | Moves the players' colored squares through the maze. |

The object of the game is to reach your opponent's starting position first by moving your colored square through the maze.

After the maze has been created, use the joystick to direct the movements of your colored square. Player #1 controls the red square with player #2 directing the blue one.

There is only one path through each maze. As you proceed toward your opponent's starting point, an audible tone gets higher. When you move in the opposite direction, the tone gets

lower. When you have found the correct starting position, a victory tune is played and the winning pathway is displayed.

At the top corners of the screen, you will see the scores for both players. Then, after the trigger is pulled on hand control #1, another maze is prepared for entry.

SCORING

Each time a player wins the maze (by reaching his opponent's starting point first), he is awarded one point. The game continues with additional mazes until one player reaches the maximum score.

PLAYING AGAIN

To play Amazing Maze again, press the RESET button, and follow the instructions for starting the game.

TIC-TAC-TOE (1 or 2 players)

In this traditional game of strategy and challenge, points are scored for being the first to place three X's or squares in a row on the game board. The board is then reset and the fun continues.

STARTING THE GAME

Choose Tic-Tac-Toe by pressing 2 on the keypad or by using remote game selection (pull the trigger on hand control #1, turn the knob until 2 appears on the screen, then pull the trigger again).

Enter the number of players (1 or 2). If #1 is chosen, the Arcade becomes the opponent.

Select the maximum score (1-99). If you enter 9 or less, the = sign must be pressed to start the game.

PLAYING THE GAME

The hand control functions for Tic-Tac-Toe are:

| | |
|----------|---|
| Trigger | Locks choice in the desired position on the game board. |
| Knob | Has no function. |
| Joystick | Moves the symbols to the desired position. |

The object of the game is to be the first to place your symbol in three consecutive positions on the game board--horizontally, vertically or diagonally.

As you take turns placing your symbol on the board, try to block your opponent in two or three directions. The game continues until there is a winner or until all positions have been filled.

The symbol and score for both players are at the top corners of the screen. Player #1 controls the red X, and player #2 the blue square.

SCORING

As soon as the first player achieves the three consecutive positions on the board, he is awarded one point. If neither player achieves this, no points are awarded and a new game board is re-drawn. The games continue until one player reaches the maximum score.

PLAYING AGAIN

To play Tic-Tac-Toe again, press the RESET button, and follow the instructions for starting the game.

LIMITED WARRANTY

Astrovision, Inc., 6460 Busch Blvd., Suite 215, Columbus, OH, 43229 (the "Warrantor") hereby warrants, to the original purchaser only, that this product will be free from defects in materials and workmanship, under normal use, for a period of 90 days from the date of purchase.

The Warrantor shall have no liability or responsibility to purchaser or any other person or entity with respect to any liability, loss or damage caused or alleged to be caused directly or indirectly by this product, including but not limited to any interruption of service, loss of business and anticipatory profits or consequential damages resulting from the use or operation of this product.

If during this 90-day period a defect in this product should occur, the product may be returned to: Astrovision, Inc., or to an authorized Astrovision, Inc. dealer and Astrovision, Inc. will replace this product without charge.

When requesting performance under the terms of this warranty, the original purchase date must be established by the customer by means of a bill of sale, invoice, or other acceptable documentation.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.
