Dear Bob

I'm happy to see the Arcadians doing so well. I was also happy to see the last letter come so soon. I have found out a lot of things lately about the BALLY and VIDEOCADES.

If you write Bally about the renaming of the Bally, they will send you a new tag that says "THE BALLY COMPUTER SYSTEM" that you can put on the BALLY or just keep it.

C
The CALL command is one of the more interesting commands that encountered. Using CALL is just what it says, it calls things out of the resident ROM. Such as if you call 5440 it gives you RND synthesized sounds. Take note though, you can't really apply CALL commands due to, that they usually either wipe out programs or just freeze programs. But I still think it's interesting to see Half of GUNFIGHTERS operate!!!

Some dates when VIDEOCADES will be due in: (If not in all ready)

#	NAME	PRICE	DUE WHEN
5001	Amazin' Maze/Tic-tac	\$19.95	Jan. 24
5003	Checkers*	\$19.95	Feb. 14
3002	Football**	\$24.95	Jan. 24
3003	Demolition Derby/Gra	\$19.95	Mar. 16
3004	Drag Race/Desert Fox	\$19.95	Feb. 20
2005	Star Battle	\$19.95	Jan. 24
2007	Bally Pinball(3 game	\$24.95	Feb. 20
4003	Astrology	\$49.95	Mar.16@
4004	Music	approx.(\$49.95)	April 13

*Backgammon may be cancelled

**I have it now and love it.

@projected delivery date

The store in Ohio, DIGITRENDS is patiently waiting for your news letters from you. They said they have written you a couple of times to ask you to send them your news letter, please. They became so envious when they saw mine!!!

Don't forget the two Bally models now:
ABA-1000 and ABPA-1100.

If you write Bally about any questions you might have, they answer prompt, ~~comrtously~~, and answer what you had really asked. One time though, when I asked how to achieve three-tone music they sent me the DEMO cartridge, don't ask me why!
(in) My last letter to Bally, I asked for specs on the VIDEOCADES and diagrams on them.

I've started my own line of cassettes for Audio interface for DIGITRENDS. They ~~buy~~ them from me, sell them, then I get a commision from DIGITRENDS. The series includes 17 cassettes each containing 1 to 4 games all of them will be out by the end of FEB. I will be sending 5 of them to you. I have made all these games and tested them, all I have to do is put them together!!! The cassettes that I'll send you are as follows:

Cassette (2)	1- TIC-TAC-TOE 2-HANGMAN
Cassette (3)	1-SHOOTING GALLERY 2-DITCH
C Cassette (6)	1-ELECTRIC ORGAN (3 tone programmable)
Cassette (11)	1-BOWLING
Cassette (16)	1-CHECKERS

Well got to get going. Don't forget to talk about three tone music next month.

Sincerely yours,

Glenn Pogue

Additional info

- * Delivery date of the Bally Add-On module in Cleveland, Ohio is set to be the week of June 16, 1979 (This is not a commitment).
- * According to Bally; putting more work on the TV interface letting you a projected 12 FG colors and 12 BG colors, but this is still in experimental. As of right now we'll be having 4 FG & 4 BG colors.
- * Bally has also said that they'll have 16k and 24k ROM VIDEOCADES in 4th quarter of 1979.
- * If you watch the stocks or have stock in Bally you'll note it has been doing the best or 1 of the best in the past couple of months!
- * There is a way to get to the Real time clock in the RAM, how I don't quite know yet.
