

ROAD TOAD

LOADING INSTRUCTIONS

1. Insert the Astro Basic cartridge into your arcade unit and press the reset button. The cursor should appear in the upper left hand corner of the screen.
2. Insert Esoterica software cassette into your cassette recorder making sure that it is rewound to the beginning.
3. Plug one end of the interface cable into the earphone port of the recorder and the other end into the audio interface jack in the basic cartridge.
4. Set the volume control knob to the high side of the center range and type the following input command:

: INPUT; RUN GO

5. Press play on the recorder. In less than one minute the program will run automatically. Stop the recorder and follow the play instructions. In multiple player games, you will be asked to input the number of players. The tape is now in position for Game 2.

The old proverbial chicken may have crossed the road to get to the other side but the road toad has slightly different motives. In the tradition of Angels Camp you will prod the toad with the use of your joystick skillfully guiding him through several lanes of traffic that becomes increasingly congested. But watch out for the speed demon in lane 3. He often comes without warning and definitely does not break for toads.

Road Toad is a 100% machine language program. During the entering program a toad holding a sign with the name of the game on it will appear. One-half the sign will then disappear, the machine code will load, the toad will scroll down, and the program will run automatically.

LIMITED WARRANTY ESOTERICA, INC.
